**SCOPE OF WORK**  
**(TERMS AND CONDITIONS)**  
**OF TENDER OF SECURITY SERVICES**

The purpose of security assessment is to assist MANAGEMENT of FIC in the protection of working class, employees, staff, building, physical assets and visitors by identifying organizational strengths and weaknesses in their physical protection and security practices. The security assessment analyzes existing protocols, policies, and procedures, in addition to evaluating physical security vulnerabilities and threats. Findings are analyzed, evaluated, and written recommendations made to control these threats.

All security management programs should be developed using the security assessment concept. Security is a system concept which requires on-going training, monitoring, and swift attention to problem identification. The ultimate success of a security program will depend upon a renewed commitment by employer's administration to support this most important process.

The assessment should be designed to identify environmental deficiencies, hazards, and unsafe practices. The professional security assessment can serve as a tool in assisting management in developing their own self-assessment. New standards require collecting information about security deficiencies and providing corrective action to improve the environment of care.
